Rung Viewer - Bottlingplant.lig

Rung 0

Conveyors 1 and 2 moving continually.

Rung 1

If the bottle stop sensor detects a bottle, activate the stop bottle piston. This is deactivated once flag 0 has been set.

Rung 2

Once the stop bottle piston has been activated and the level sensor does not show a full bottle, activate the bottle filler piston to fill the bottle.

Rung 3

Debugger
